A guiding light of wisdom, love, and understanding for the hundreds of thousands of truth-seekers whose lives have been transformed by the teachings of Paramahansa Yogananda, Sri Mrinalini Mata dedicated herself to serving the Guru’s spiritual and humanitarian work for more than seventy years. A pure exemplar of unconditional devotion and service to our Guru, and of profound attunement with his wisdom and ideals, this exalted soul illuminated the way for countless devotees worldwide to dwell always in the light and love of God.

Gurudev has given us such a volume of wisdom and God-love in his Lessons and in his books. And if every day you read these thoughts — not just read them, but meditate upon them, make them a part of your life, make them a part of your feeling, make them a part of every atom of your being, let him speak to you these words — and above all, dear ones, meditate as he has taught you, with the Hong-Sau Technique, practice of communion with God through Aum, and the practice of Kriya Yoga, you will find that in this sadhana that he has given, nothing in your life will be lacking in the way of spiritual necessity. It will make you just fly, like a shooting star, to God.

In your life, let that spiritual light be kindled by the guidance and the God-love and the wisdom of Guru, as he has placed it now in your heart and in your keeping.

Dear ones, in this divine exchange of love, of oneness in God and Guru, we have come, we have been with you, and these physical forms depart; but there will never be any separation of our souls — of this divine communion and oneness that we know in Them.

God bless you all. God love you all.
